### AUDIO/VISUAL RECORDING AND PHOTOGRAPHY CONSENT

On occasion, video recordings, audio recordings, photographic slides, and photographs are taken of children and youth during church and diocesan sponsored activities. These are utilized in newsletters, websites, church social media, event promotion, advertisements and other printed media. As the State of Texas does not prevent audio or video recording or the photographing of children/youth (*with the exception of Senate Bill 1, Section 26.009, which deals specifically with school districts*), it does encourage parental consent. Additionally, current video recordings and

photographs assist law enforcement agencies dealing with the Missing Children's Program. I \_\_\_ consent / \_\_\_ do not consent (check one) to the use of such materials in which my child may appear. I release the staff and volunteers of Christ the King Catholic Church and the Roman Catholic Diocese of Dallas from any liability connected with the use of my child's picture or audio/video recording as part of any of the above or similar activities.

NOTE: Should your child have an Emergency Injection Device (Epi-Pen), Diabetic Condition, Asthmatics with a rescue inhaler, or other special medical condition, it is important to provide a clear description as to the nature of the medical condition and any medication. This is important for situations where the youth becomes unable to self-administer these treatments and to communicate with Emergency Response Personnel. If a child, who is normally able to self-administer these medications becomes unable to self administer or is in distress, youth ministers, volunteers, or other parish personnel will immediately call 911 to summon Emergency Medical Personnel to respond to the medical emergency. Youth ministers, volunteers, and other parish personnel are NOT trained to administer these types of emergency medications.

\_\_\_\_\_ This child takes medication but is unable to self-dispense any and all needed medications.  
\_\_\_\_\_ No medication of any type whether prescription or nonprescription may be administered to this child unless the situation is life-threatening and emergency treatment is required.
