

CMG Connect Annual Renewal (for those who have previously served in ministry with children)

Go to nashville.cmgconnect.org/users/sign_in.

Use login from last year (email and password).

On the first screen you see, your dashboard, you will scroll about halfway down and see two vertical boxes under "Required Trainings." Click on the one that looks like the one I have pasted below. If it is due, it will let you choose it. This is the form that we have to do every year. It should be very simple. At this time, no videos are needed to renew your status. If it has not been a full 365 days since you did your last requirement, you will need to wait until then. From what we can see, it will not let you until a full year has passed.

Expires Every 1 Years

B. REQUIRED Annual Disclosure - Nashville

Please ONLY proceed if your most recent completion of Safe Environment training requirements was one (1) or more year...
