

Rules for Robot Building Contest

1. Families should design and build robots together.
2. Robots must be at least 3 feet tall.
3. Robots must not have any sharp edges.
4. Robots can be created from used supplies or items may be purchased.
5. Robots must be turned in no later than June 25th, 2017.
6. Families should register at the VBS table or in the Children's Ministry Office.
7. The winning robot will be on the stage in the sanctuary during VBS. All other robots will be used throughout the church during VBS week.
