You are at this address (babysitter)

We are at this address

- +** If my child is acting strangely or is unable to wake up, they may have low sugar. If they are awake please give them 4 to 6 oz of fruit juice, non diet soda or something sweet (or a glucose tablet).
- +** If there is no improvement within 10 to 15 minutes please call 911 and give more sugar.
- +** If my child is unable to wake up and cannot swallow - please do not put anything in their mouth and call 911 right away.

Thank you for your help
